

**Jennifer**

During the final year of my business degree, I was awarded a Career Advancement

Scholarship from Peach State. At the time, my husband and I had just welcomed our first child and purchased our first home. We were unsure of how we could afford finishing my degree (the first step on the path to become a CPA) but the scholarship was just enough to cover all the costs. Right before graduating we had to replace the roof on our 'new to us' home and Peach State was amazing. They provided financing at a great interest rate. I am now taking my CPA exams, and we have almost paid off our roof. I am incredibly thankful for Peach State.
